INDEX TO VOLUME VI

A

ABBOTT, E. J.: Interpretation of Sound Measurements Used as a Tool in Machinery Noise Reduction, (Abstract) 55
—— On the Use of Sound Measurements in Machinery Noise Reduction, (Abstract) 195
—— Scales for Sound Measurements Used in Machinery Noise Reduction, 137–149
ABBOTT, R. B.: Response Measurement and Harmonic Analysis of Violin Tones, (Abstract) 196
AIGNER, F. AND M. J. O. STRUTT: On a Physiological Effect of Several Sources of Sound on the Ear and Its Consequences in Architectural Acoustics, 155–159

B

BARTHOLOMEW, WILMER T.: Physical Definition of "Good Voice-Quality" in the Male Voice, 25–33
BEDELL, E. H.: (see Wente, E. C.) 121–129
—— AND K. D. SWARTZEL, JR.: Reverberation Time and Absorption Measurements with the High Speed Level Recorder, 130–136
BROWN, W. J., JR.: (see Stanton, G. T.) 95–105

C

CHRISLER, V. L.: Acoustics of the Rooms at the Bureau of Standards, (Abstract) 54
—— Fog Signals, (Abstract) 195
—— Sound Absorption Coefficients, 115
CHURCHER, B. G.: Loudness Scale for Industrial Noise Measurements, (Abstract) 195, 216–226
COLWELL, R. C.: Transverse Vibrations of Membranes and Plates, (Abstract) 194

D

DAVIS, HALLOWELL: Electrical Phenomena of the Cochlea and the Auditory Nerve, (Abstract) 196, 205–215
DELSASSO, L. P.: Application of the Doppler Effect to Avigation, (Abstract) 57
—— Measurement of Altitude and Inclination of Aircraft by the Echo Method, 1–15
DEMING, A. F.: (see Stowell, E. Z.) 70–79
DOD, WILL C.: Apparatus for Projecting Harmonic Curves in Space, 279–281
—— Static and Dynamic Demonstrations of Harmonic Curves in Two and in Three Dimensions, (Abstract) 194
DORSEY, HERBERT GROVE: Transmission of Sound Through Sea Water, (Abstract) 194

F

FLETCHER, HARVEY: Loudness, Pitch and the Timbre of Musical Tones and Their Relation to the Intensity, the Frequency and the Overtone Structure, (Abstract) 56; 59–69
FULLER, MELVILLE W.: (see Hart, Harry C.) 80–94

G

GIANNINI, G. M.: Some Improvements in the Design of Bell Towers, (Abstract) 55
GOLDSTEIN, S. AND N. W. MCLACHLAN: Sound Waves of Finite Amplitude in an Exponential Horn, 275–278
GOODFELLOW, LOUIS D.: Experiments on the Senses of Touch and Vibration, 45–50
GROSSMANN, ERNST: Contribution to the Measurement of the Velocity of Sound with the Acoustical Interferometer, 106–107

H

HAM, L. B.: Loudness and Intensity Comparisons, (Abstract) 195
HARELICK, SAMUEL: (see Josephson, E. M.), (Abstract) 56
HART, HARRY C., MELVILLE W. FULLER AND WALTER S. LUSBY: Precision Study of Piano Touch and Tone, 80–94
HICKMAN, C. N.: Acoustic Spectrometer, (Abstract) 54; 108–111
HUNT, FREDERICK V.: Recording Instruments for Frequency and Intensity, (Abstract) 54

J

JENKINS, R. T.: (see Thuras, A. L.) (Abstract) 57; 173–180
JONES, ARTHUR TABER: Organ Pipes and Vowel Quality, 282–283
JOSEPHSON, E. M. AND SAMUEL HARELICK: Normal Variations in Auditory Acuity, (Abstract) 56

K

KNUDSEN, VERN O.: Absorption of Sound in Gases, (Abstract) 197; 199–204

L

LAMSON, HORATIO W.: Simple and Precise Standard of Frequency and Musical Pitch, (Abstract) 196
LUSBY, WALTER S.: (see Hart, Harry C.) 80–94

M

MALLINA, R. F.: Discussion on the Design of a Rotating Mirror Oscilloscope, 37–42
MASON, W. P.: Motion of a Bar Vibrating in Flexure, Including the Effects of Rotary and Lateral Inertia, 246–249
MASSA, FRANK: (see Olson, Harry F.) 250–254
MCLACHLAN, N. W.: (see Goldstein, S.) 275–278
MIESSNER, BENJAMIN F.: Design Considerations for a Simple and Versatile Electronic Music Instrument, (Abstract) 55; 181–187
MONTGOMERY, H. C.: Influence of Experimental Technique on the Measurement of Differential Intensity Sensitivity, (Abstract) 196

N

NORRIS, R. F.: Discussion of Sound Absorption Coefficients, 43–44; (Abstract) 55

O

OBATA, JÛICHI AND TAKEHIKO TESIMA: Experimental Studies on the Sound and Vibration of Drum, 267–274
OLSON, HARRY F. AND FRANK MASSA: Performance of Telephone Receivers as Affected by the Ear, 250–254
O'NEIL, H. T.: (see Thuras, A. L.) (Abstract) 57; 173–180

P

PEDERSEN, P. O.: Subharmonics in Forced Oscillations in Dissipative Systems. Part I, 227–238
PIERCE, G. W.: Demonstration-Lecture on Supersonic Phenomena, (Abstract) 55 (Title only)

R

REDFIELD, JOHN: Certain Anomalies in the Theory of Air Column Behavior in Orchestral Wind Instruments, 34–36; (Abstract) 55
—— Loudness of Unison Produced by a Number of Voices Each of Unit Loudness, (Abstract) 194
RETTINGER, MICHAEL: Note on Reverberation Characteristics, 51–52
—— On the Theory of Sound Absorption of Porous Materials, 188–191
ROTHSCHILD, DONALD: (see Seashore, C. E.) (Abstract) 55

S

SABINE, PAUL E.: What is Measured in Sound Absorption Measurements (Abstract) 196; 239–245
SCHMID, F. C.: (see Stanton, G. T.) 95–105
SCRIPTURE, E. W.: Film Tracks of English Vowels, 169–172
SEASHORE, C. E. AND DONALD ROTHSCHILD: Timbre of Orchestral Instruments, (Abstract) 55
SETTE, W. J.: (see Wolf, S. K.) (Abstracts) 57, 196; 160–168, 255–266
STANLEY, D.: (see Wolf, S. K.) (Abstract) 196; 255–266
STANTON, G. T., F. C. SCHMID AND W. J. BROWN, JR.: Reverberation Measurements in Auditoriums, 95–105
STEINBERG, JOHN C.: Application of Sound Measuring Instruments to the Study of Phonetic Problems, 16–24
STEVENS, S. S.: Relation of Pitch to Intensity, 150–154
STOWELL, E. Z. AND A. F. DEMING: Aural Rectification, 70–79
STRUTT, M. J. O.: (see Aigner, F.) 155–159
SWARTZEL, K. D. JR.: (see Bedell, E. H.) 130–136
—— (see Wente, E. C.) 121–129

T

TESIMA, TAKEHIKO: (see Obata, Jûichi) 267–274
THURAS, A. L., R. T. JENKINS AND H. T. O'NEIL: Extraneous Frequencies Generated in Air Carrying Intense Sound Waves, (Abstract) 57; 173–180

W

WATSON, F. R.: Report of Committee on Sound-Absorption Measurements, (Abstract) 54
WENTE, E. C.: Recent Developments in Acoustical Measuring Instruments, (Abstract) 197
——, E. H. BEDELL AND K. D. SWARTZEL, JR.: High Speed Level Recorder for Acoustic Measurements, 121–129
WOLF, S. K. AND W. J. SETTE: Some Applications of Modern Acoustic Apparatus, (Abstract) 57; 160–168
——, D. STANLEY AND W. J. SETTE: Quantitative Studies on the Singing Voice, (Abstract) 196; 255–266

Y

YOUNG, ROBERT W.: Doppler Effect for Sound in a Moving Medium, 112–114

BOOK REVIEWS

APPLIED ACOUSTICS. Harry F. Olson and Frank Massa, 192
BESSEL FUNCTIONS FOR ENGINEERS. N. W. McLachlan, 284
LOUDSPEAKERS. N. W. McLachlan, 192
MODERN ACOUSTICS. A. H. Davis, 285
PRACTICAL ACOUSTICS FOR THE CONSTRUCTOR. C. W. Glover, 53
PROBLEM OF NOISE. F. C. Bartlett, 286
SIGNALS AND SPEECH IN ELECTRICAL COMMUNICATION. John Mills, 286
TORSIONAL VIBRATION. W. A. Tuplin, 285
